<b>Total:</b>	<b>173 drapes</b>		

*updated 19th Feb 2013, and subject to change*

NB. These two numbers are **NOT used - 147 and 150**

## DRAPE NOTATIONS

Each drape is labelled with both Tonal and Seasonal directions. Every drape can be used for seasonal analysis, tonal analysis, or both.

- Each drape carries a label which shows the **name** of the hue, shade, tone or tint and its **number** – *the numbers are for ordering purposes only.*
- Each drape suggests which **season** could safely wear that colour:
  - Spring
  - Summer
  - Autumn
  - Winter
- Each drape also suggests which **tonal direction** could safely wear that colour:
  - LT = Light
  - DK = Dark / Deep
  - BT = Bright / Clear
  - MT = Muted / Soft
  - C = Cool
  - WM = Warm

If you work with the tonal approach, you can use any of the drapes with that method. They are all also marked with the seasons, so **every drape can be used with any system at all.**
