

Tonal Start-small Drape Set – list of contents

Not everyone wants a pro draping kit containing everything a professional needs for their consulting clients. So we've designed the Start-small Expand-later drape sets.

The Tonal Start-small drape set contains **30x standard drapes for the 6 Tonal directions**: 6x darkest neutrals, 6x lightest neutrals, 6x reds, 6x blues, and 6x greens.

You will be able to **diagnose all six Tones with these 30 drapes** and give each client her best lightest and darkest neutrals, plus her best red, blue, and green.

You can expand later with more colours and perhaps even more reds, greens, and blues.

All our drapes have labels with both Seasonal & Tonal notations, so they can be used for BOTH seasonal & tonal analysis.
